

**INPHONE[™]
HEARPHONES**

KIRK

THE KIRK.

ITS ADVANTAGE COMES OVER LOUD AND CLEAR.

IN EARSHOT.

The Kirk is a two-way loud-speaking telephone which enables the busy executive to hear and be heard on the telephone without lifting the handset.

Complete hands-free operation means greater freedom to carry on uninterrupted, or to move about the office whilst still in conversation. The Kirk is excellent for joint discussions between 2-4 people.

INGENIOUS.

The Kirk also features on-hook dialling which means one finger is all

you need to tap out the number and the ringing tone comes over loud and clear.

An adjustable tone control alters the level of incoming calls, and the loudspeaking volume is also controllable.

IN COLOURS.

The stylish Kirk is available with a range of 6 interchangeable colour covers – lava, brown, white, green, yellow and orange

THE KIRK.

Main features include:

- Two-way loudspeaking facility.
- On-hook dialling.
- Adjustable tone caller
- Adjustable speaker volume.
- Available in 6 colours – lava, brown, white, green, yellow and orange.
