

INPHONE™

FACILITYPHONE 200

FACILITYPHONE 200. THE INPHONE™ WITH SURPRISES IN STORE.

IN TIME.

The Facilityphone 200 is an ingenious combination of loudspeaking telephone, callmaker, digital clock and calculator.

The clock is particularly useful. Its alarm can remind you to attend important meetings, and the stopwatch function makes sure those long-distance calls don't last too long.

IN STORE.

The Facilityphone 200's memory allows you to call up to 56 often-used numbers simply by pressing a few buttons. Your 16 most popular

numbers are available at the push of a single button.

There's a loudspeaker, too, that lets you carry on working while you're waiting for the call to

connect, and leaves your hands free to take notes while you're talking, or do some figurework on the integral 8-digit calculator

A speaker also allows you to share your calls in small group discussions around your desk.

IN PRIVACY.

Other features of the Facilityphone 200 include a silence button that allows you to make confidential asides without a caller hearing you, a loudspeaker volume control and a last number re-dial facility.

Clearly, the Facilityphone 200 does it all.
