The New Keyphone

the phone with the
modern touch

It's simpler, speedier, so much more stylish

The new Keyphone is the phone with a keypad instead of a dial. You merely press the keys to obtain the number you want – and this touch-calling is a faster and far easier action than dialling. At present these Keyphones are available only in certain areas – so get the full facts *now!*

Please write your name, full postal address, and telephone number below, and post in an envelope to your Telephone Manager, whose address is on your account. If you pay your account by post, include it, *with the panel completed*, in the same envelope.

Please note We do our best to supply our customers with the apparatus they ask for but we may have to provide apparatus which does not accord exactly with the descriptions and illustration in this leaflet.
