We're here to help you (Your local British Telecom office)	1
How to get the best from your telephone	52
How to show your telephone number and area code	inside back cover

SOS-Emergency calls

Fire	Dial 999
Police	and ask for the emergency service you want
Ambulance	

The information shown in this booklet is the latest available at the time of going to print and may have altered before this copy of the booklet is issued or may be altered subsequently without amendment of the booklet. More comprehensive and up-to-date information may be obtained from your local British Telecom office.

Only dialling codes authorised for use from the telephone you are using may be dialled. It is an offence dishonestly to use the British Telecommunications system with intent to avoid due payment

We're here to help you

We are

British Telecom Oxford
Telephone House
16 Paradise Street
Oxford

These exchanges and codes are also included in bold type in the list of codes on the following pages.

National and local call dialling codes

Local call dialling

To call a number on your own exchange:
dial only the local number.

To call a number on any other exchange within your local call area:
dial the code shown, if any, then the local number.

National call dialling

To call a number on an exchange outside your local call area:
dial the area code shown then the local number.

To call an all-figure number:
dial all the figures.

Charges

Calls are charged as indicated by the charge letters:
L-Local, *a*-up to 56km, *b1* and *b*-over 56 km, (from
charging points).

Operator

All inland calls can be dialled direct.
Dial **100** for the operator if you have difficulty.

All-figure numbers

All-figure numbers

Telephones in and around the cities named below have all-figure numbers, e.g.

021-246 8071
061-246 8021

*Charge
letter*

<i>b</i> London	numbers begin 01 —
<i>b</i> Birmingham	numbers begin 021 —
<i>b</i> Edinburgh	numbers begin 031 —
<i>b</i> Glasgow	numbers begin 041 —
<i>b</i> Liverpool	numbers begin 051 —
<i>b</i> Manchester	numbers begin 061 —

What to dial

To call one of these numbers:
dial all the figures.
There is no separate dialling code.

Charges

Calls are charged as indicated by the charge letters:
L-local, *a* -up to 56km, *b1* and *b* -over 56km,
(from charging points)

Automatic Radiophone calls

Direct dialling You can dial direct to Automatic Radiophone receivers in any of the zones shown on the map below.

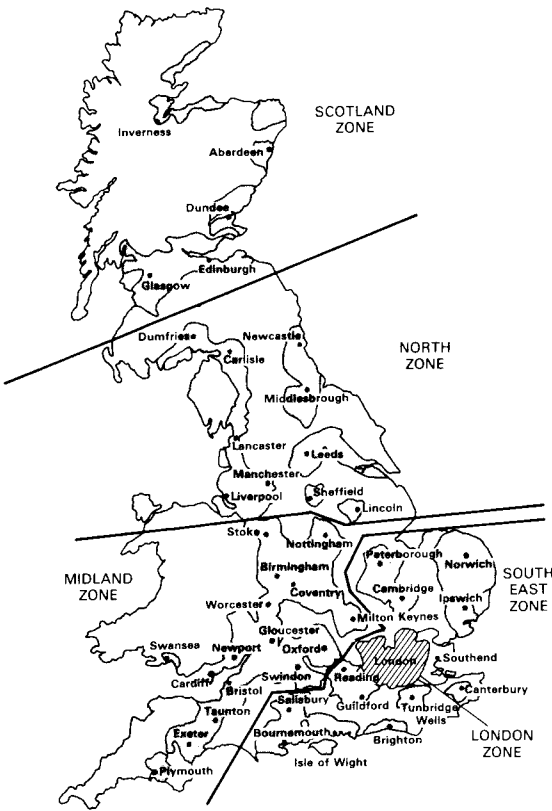

What to dial If you know the approximate location of the Radiophone dial the appropriate code as shown below.

Example: If the Radiophone you want is in the London area dial 0034 then the six digit Radiophone number.
 If the same Radiophone is in the Birmingham area dial 0036 then the six digit Radiophone number.

Dialling Codes	London Zone	0034
	Midland Zone	0036
	North and Scotland Zones	0037
	South East Zone	0039

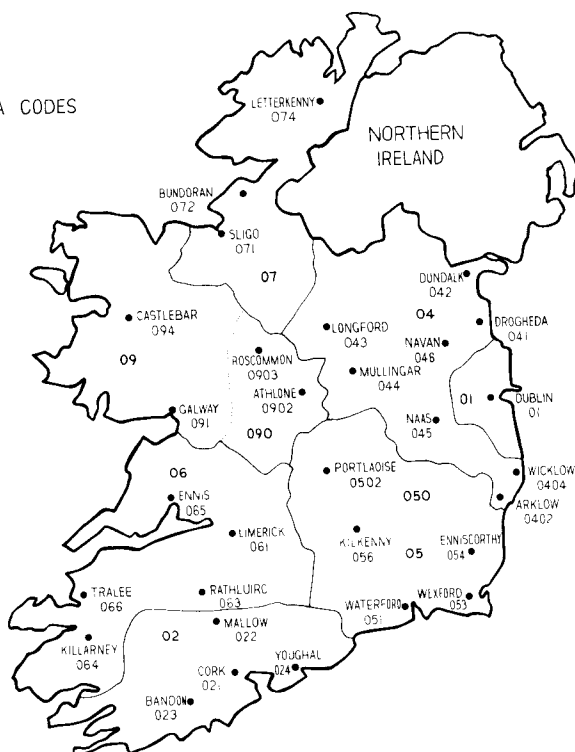

Charges Calls are charged at a flat rate regardless of distance.

Manual Radiophone See "Operator Services" page for instructions.

Irish Republic calls

AREA CODES

Direct dialling

You can dial direct to all automatic exchanges in the Irish Republic. When an exchange in the Irish Republic becomes automatic, its name is no longer used and it is given an Area Code which is shown in brackets at the beginning of the all-figure number, e.g. (021) 4 01 23.

What to dial

To call a Dublin (01) number:

dial **0001**, in place of the (01), then the remainder of the number, e.g.

To call (01) 75 91 97

dial **0001 75 91 97**

To call any other Irish Republic automatic exchange: dial **010 353**, followed by the Area Code (minus the initial 0) then the remainder of the number, e.g.

To call (021) 4 01 23

dial **010 353 21 4 01 23**

Charges Operator

Calls are charged at the Irish Republic rate.

For calls you cannot dial direct, or if you have difficulty in obtaining a dialled call:

dial **100** for the inland operator and say the number you want is in the Irish Republic.

Directory enquiries

For numbers in the Irish Republic, dial **192**.

International Calls and Enquiries

International Direct Dialling

IDD is the quick, easy way to telephone abroad. It is currently available to over 120 countries, about 93% of the world's telephones.

What to dial

Wherever you are calling you will have to dial the complete international number. In most cases this is made up of four distinct elements.

First dial the International Code. From the UK this is always 010.

Then dial the code for the country you require.

Next dial the Area Code, remembering to omit any initial 0 (or 9 in the case of Finland and Spain).

Finally dial the customer's number.

No Area Code is required on IDD calls to some countries, these are marked * in the following code lists.

Where this is the case simply dial the customer's number immediately after the Country Code.

Country Codes and a brief selection of Area Codes (identified thus †) are shown on the following pages. Many more Area Codes are published in the International Telephone Guide (ITG). The ITG also gives hints on dialling, charging information and help with international time differences. It is available free of charge by dialling 100 and asking for Freefone 2013 (during normal working hours).

For the business user who may require more extensive Area Code information, a series of IDD Code Leaflets are printed. A leaflet is available for each country on IDD which gives not only codes and time differences, but descriptions of tones you may hear. These are also obtainable free, from Freefone 2013.

Remember that tones in other countries are often different from those in the UK. For a free demonstration dial 100 and ask for Freefone 2070 (for Europe) or Freefone 2071 (for North America).

IDD Charging

There is no 3 minute minimum, your call is timed and charged in units. Each country is placed in a Charge Band, the time allowed per unit varies according to the Charge Band the country you are dialling is in. You pay only for the number of units recorded during your call.

Cheap Rates. These are available for IDD calls to most countries, the exception being on calls to those countries in Charge Band 5B where the standard rate applies at all times. The IDD Cheap Rate is 8pm to 8am (UK time) Monday to Friday and all weekend. There may be some extension of cheap rates at Christmas and the New Year. Details are published in the press in December.

International Operator Services

If the call you want cannot be dialled direct then the international operator will be pleased to help you. Similarly, if you require a specific Area Code or a special service, such as a transferred charge or personal call, ask the international operator who will provide the information you require, or connect the call.

Transferred charge calls. These may be made to you from many countries. In the majority of cases charges are as for outgoing personal calls to that country, but in some cases they are higher. For more detailed information contact the international operator.

Conference Calls. This is an expanding service for the business user. A call can be connected between up to 10 parties, each in a different country if required. For more information, or to book a Conference Call, dial 158, and ask for Conference Call Service.

Operator Charging

All operator connected calls are subject to a 3 minute minimum charge. Further time is charged in whole minutes, part of a minute being rounded up to the next minute.

International charges

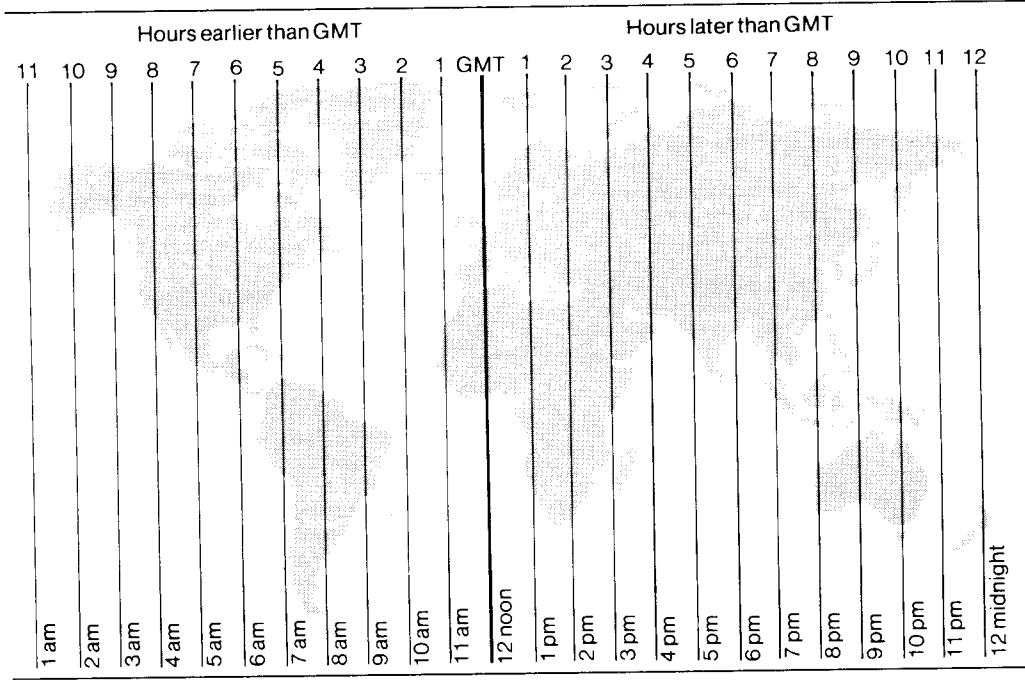

A leaflet giving details of international tariffs can be obtained by dialling 100 and asking for Freefone 2013, during normal working hours. Alternatively the international operator can give you the charge for any particular type of call.

Time differences

To help you telephone at the right time the basic time differences for each country are included in the following list. The difference

is based on Greenwich Mean Time (+ later than, - earlier than).
Our own time alters during the summer as it does in some other countries, so time differences are approximate. If you do need to know the precise time in another country ask the international operator.

In case of difficulty

If you have a problem with the International Telephone Service contact the international operator or supervisor: the number for each country is shown on the following pages. If they cannot resolve your problem then:

For IDD calls contact the Customer Service

point in your local British Telecom Area Office: the number is on page 3 of this booklet.

For operator controlled calls, dial 100 and ask for Freefone 2606, during normal working hours.

International Telegrams dial 100
International Telegram enquiries dial 100

IDD and Operator Service Codes

Abbreviations used on the following pages are: (Op.)—Operator, Dir. enqs.—Directory enquiries.

How to get the best from your telephone

Dialling codes

Remember, dialling codes for calls within your local call area are often not the same as area codes. Always refer to the 'local call dialling codes' in this book for the correct code to use.

Maintain an up-to-date list of dialling codes and/or numbers of people you are likely to call. This will save you time in the future. A free Personal Telephone Directory can be obtained from your local enquiry operator, dial **191**.

It helps to write down the complete code and number before you start to dial.

Using the phone

When you dial, using either a rotary dial or press-button telephone, don't pause too long between digits.

After dialling there may be a pause before you hear a tone; hold on for up to **15** seconds on calls within the UK and up to **60** seconds on international calls to allow the equipment time to connect your call.

Saving time and money

On calls to a private exchange ask for the extension number you want. This will save you time and money. If the extension is engaged, it will often pay to try again later rather than to hold on and wait.

Remember, it costs only a few pence to dial a call to find out if the person you want is there. This may be cheaper than paying for a 'personal' call via the operator because the 'personal fee' is payable whether or not the call is successful. However only one fee is payable however many attempts are made to connect the call during any period of 24 hours. Similarly, a transferred charge call via the operator costs the called person more than if you dial direct and ask to be called back.

Operator assistance

If you get an unsatisfactory call because of connection to a wrong number, a crossed line, you get cut off or get a very faint or noisy line, dial **100** for the operator who will arrange for an appropriate credit on your next bill. If you wish the operator will assist in connecting your call and will charge you at the Lower Operator Rate.

How to show your telephone number and area code

What to show

Always show your number in full on personal stationery, letterheadings, advertisements etc., in the following form:

Exchange name (area code) local number

e.g. **Haddenham (0844) 290193**

The exchange name is required by callers within your local call area so they can refer to their list of local call dialling codes for the correct code to use.

The area code is for callers outside your local call area to save them looking up the code.

Telephone numbers in and around certain major cities are all-figure numbers, e.g. **021-246 8071**, which do not have exchange names.

Helping people abroad to dial you

If you have correspondents abroad, it will help them to dial you if you use the internationally agreed format for showing international telephone numbers combined with national numbers, e.g.

National	Haddenham (0844) 290193
International	+ 44 844 290193

+ tells callers to dial their own international prefix which varies from country to country.

44 is the 'country code' to reach the UK.

The initial figure '0' of the area code is not dialled by callers abroad.

Your 'area code'
