SOS-Emergency calls

Fire
Police
Ambulance

Dial 999
and ask for the emergency service you want

The information shown in this booklet is the latest available at the time of going to print and may have altered before this copy of the booklet is issued or may be altered subsequently without amendment of the booklet. More comprehensive and up-to-date information may be obtained from your local Telephone Area Office.

Only dialling codes authorised for use from the telephone you are using may be dialled. It is an offence dishonestly to use the Post Office system with intent to avoid due payment.

We're here to help you

Local call dialling codes

Local call dialling

To call a number on your own exchange:
dial only the local number.

To call a number on any other exchange within your local call area:
dial the code shown, if any, then the local number.

Charges

Calls to exchanges listed on this page are charged at
local (L) rate.

Operator

Dial **100** for the operator if you have difficulty.

These exchanges and codes are also included in bold type in the list of codes on the following pages.

National and local call dialling codes

Local call dialling

To call a number on your own exchange:
dial only the local number.

To call a number on any other exchange within your local call area:
dial the code shown, if any, then the local number.

National call dialling

To call a number on an exchange outside your local call area:
dial the area code shown then the local number.

To call an all-figure number:
dial all the figures.

Charges

Calls are charged as indicated by the charge letters:
L-Local, *a*-up to 56km, *b*-over 56km, (from charging points),
c-Channel Islands.

Operator

All inland calls can be dialled direct.
Dial **100** for the operator if you have difficulty.

All-figure numbers

All-figure numbers

Telephones in and around the cities named below have all-figure numbers, e.g.

021-246 8071

061-246 8021

Charge

letter

| | | |
|----------|-----------------------------|----------------------------|
| <i>a</i> | London | numbers begin 01 — |
| <i>b</i> | Birmingham | numbers begin 021 — |
| <i>b</i> | Edinburgh | numbers begin 031 — |
| <i>b</i> | Glasgow | numbers begin 041 — |
| <i>b</i> | Liverpool | numbers begin 051 — |
| <i>b</i> | Manchester | numbers begin 061 — |

What to dial

To call one of these numbers:

dial all the figures.

There is no separate dialling code.

Charges

Calls are charged as indicated by the charge letters:

L-local, *a* -up to 56km, *b* -over 56km, (from charging points)

Irish Republic calls

Direct dialling

You can dial direct to exchanges in the Dublin area of the Irish Republic.

The telephone numbers consist of 8 figures beginning with (01), e.g.

(01) 75 91 97

Charge

letter

IR Dublin **(01)** dialling code **0001**

What to dial

To call a Dublin (01) number:

dial the code **0001**, in place of the (01), then the remainder of the number, e.g.

To call (01) 75 91 97:

dial **0001 75 91 97**

Charges

Calls are charged as indicated by the charge letter.

Operator

For calls you cannot dial direct, or if you have difficulty in obtaining a dialled call:

dial **100** for the inland operator and say the number you want is in the Irish Republic.

International direct dialling

Countries that can be dialled

The countries you can dial and some of the places within those countries are shown in the following pages. If the place or country you want is not listed or if you have difficulties, ask the international operator, who will give you the information required or connect the call for you.

Many more places are listed in separate country leaflets which can be obtained free of charge: dial **100** during normal office hours and ask for **Freefone 2013**.

What to dial

If the number you want is shown as an area telephone number, e.g.

Norway, Oslo 426198,

refer to the following pages and dial the full code followed by the local number.

| | | | | |
|------|----------------------|--------------|-----------|---------------|
| Dial | 010 | 47 | 2 | 426198 |
| | International prefix | Country code | Area code | Local number |

If the number is shown as a national number, e.g.

Norway (02) 426198,

refer to the following pages and dial the code shown against the country name followed by the national number omitting the prefix '0' (or '9' in the case of Finland and Spain).

| | | | |
|------|----------------------|--------------|-------------------------------------|
| Dial | 010 | 47 | 2 426198 |
| | International prefix | Country code | National number (minus initial '0') |

However, the prefix '0' **must** be dialled on calls to Andorra, Guyana, Tasmania and the USSR.

If the number is shown in the internationally agreed format, e.g.

| | | | |
|---------------|--------------------|---|--------|
| National | <u>(02) 426198</u> | | |
| International | +47 | 2 | 426198 |

dial the international prefix in place of the + sign followed by the remainder of the number.

| | | |
|------|----------------------|----------------------|
| Dial | 010 | 47 2 426198 |
| | International prefix | International number |

After dialling you may have to wait up to one minute before hearing a tone.

Call charges

Calls are charged at rates indicated by the charge bands.

Standard rate period for charge bands 1-5A is 8.00 am to 8.00 pm Monday to Friday and cheap rate applies at all other times. Standard rate applies at all times for charge band 5B.

Tones you may hear

Ring tone in Europe is of medium pitch and bursts of tone are evenly spaced with quite long pauses between them, whilst in North America, it has bursts of low pitched tone. On calls to France you may hear a series of rapid pips to advise that your call is being connected.

Engaged tone in Europe is of medium pitch but repeated at shorter intervals than ringing tone. In North America it is a medium pitched tone with short pauses.

Special information tone Three rapid pips in ascending pitch, indicates that a directly dialled call is not available. If an accompanying announcement is of no help, call the international operator.

For a free demonstration of tones used in Europe: dial **100** and ask for **Freefone 2070**.

For tones used in North America: dial **100** and ask for **Freefone 2071**.

Time differences

Approximate time differences from Greenwich Mean Time (GMT) are shown against each country listed on the following pages. Remember that local time variations e.g. British Summer Time, will affect actual time differences.

Dialling to the UK from abroad

You will need to check whether you can dial calls to the UK from the telephone you are using.

Dial - International prefix used in that country, UK country code (44), UK area code (omitting prefix '0'), local number.

e.g. To call 01-246 8041 from the USA: dial **011 44 1 246 8041**.

To call Aberdeen (0224) 34344 from the Netherlands: dial **09 44 224 34344**.

How to get the best from your telephone

Dialling codes

Remember, dialling codes for calls within your local call area are often not the same as area codes. Always refer to the 'local call dialling codes' in this book for the correct code to use.

Maintain an up-to-date list of dialling codes and/or numbers of people you are likely to call. This will save you time in the future. A free Personal Telephone Directory can be obtained from your local enquiry operator, dial **191**.

It helps to write down the complete code and number before you start to dial.

Using the phone

When you dial, using either a rotary dial or press-button telephone, don't pause too long between digits.

After dialling there may be a pause before you hear a tone; hold on for up to **15** seconds on calls within the UK and up to **60** seconds on international calls to allow the equipment time to connect your call.

Saving time and money

On calls to a private exchange ask for the extension number you want. This will save you time and money. If the extension is engaged, it will often pay to try again later rather than to hold on and wait.

Remember, it costs only a few pence to dial a call to find out if the person you want is there. This may be cheaper than paying for a 'personal' call via the operator because the 'personal fee' is payable whether or not the call is successful. However only one fee is payable however many attempts are made to connect the call during any period of 24 hours. Similarly, a transferred charge call via the operator costs the called person more than if you dial direct and ask to be called back.

Operator assistance

If you get an unsatisfactory call because of connection to a wrong number, a crossed line, you get cut off or get a very faint or noisy line, dial **100** for the operator who will arrange for an appropriate credit on your next bill. If you wish the operator will assist in connecting your call and will charge you at the Lower Operator Rate.

How to show your telephone number and area code

What to show

Always show your number in full on personal stationery, letterheadings, advertisements etc., in the following form:

Exchange name (area code) local number

e.g. **Aberdeen (0224) 34344**

The exchange name is required by callers within your local call area so they can refer to their list of local call dialling codes for the correct code to use.

The area code is for callers outside your local call area to save them looking up the code.

Telephones in and around the 6 major cities have all-figure numbers, e.g. **021-246 8071**, which do not have exchange names.

Helping people abroad to dial you

If you have correspondents abroad, it will help them to dial you if you use the internationally agreed format for showing international telephone numbers combined with national numbers, e.g.

| National | Aberdeen (0224) 34344 |
|----------------------|------------------------------|
| International | +44 224 34344 |

+ tells callers to dial their own international prefix which varies from country to country.

44 is the 'country code' to reach the UK.

The initial figure '0' of the area code is not dialled by callers abroad.

Your 'area code'

Haywards Heath (0444)
Ardingly (0444)
