# SOS-Emergency calls

Fire Police Ambulance Coastguard

#### **Dial 999**

and ask for the emergency service you want

The information shown in this booklet is the latest available at the time of going to print and may have altered before this copy of the booklet is issued or may be altered subsequently without amendment of the booklet. More comprehensive and up-to-date information may be obtained from your local British Telecom office.

Only dialling codes authorised for use from the telephone you are using may be dialled. It is an offence dishonestly to use the British Telecommunications system with intent to avoid due payment.

#### We're here to help you

We are

**British Telecom Portsmouth** 

Telephone House

Elm Grove

Southsea, Hants

PO5 1BA

Telephone

Portsmouth (0705) 822233

Telex

### All-figure numbers

#### **All-figure numbers**

Telephones in and around the cities named below have all-figure numbers, e.g.

021-246 8071 061-246 8021

#### Charge letter

| b | London      |    |  |  |  |  |  |  | numbers begin 01    |
|---|-------------|----|--|--|--|--|--|--|---------------------|
| b | Birminghan  | n. |  |  |  |  |  |  | numbers begin 021 - |
| b | Edinburgh . |    |  |  |  |  |  |  | numbers begin 031 - |
| b | Glasgow     |    |  |  |  |  |  |  | numbers begin 041 - |
| b | Liverpool.  |    |  |  |  |  |  |  | numbers begin 051 - |
| b | Mancheste   | r. |  |  |  |  |  |  | numbers begin 061 - |

#### What to dial

To call one of these numbers:

dial all the figures.

There is no separate dialling code.

### Charges

Calls are charged as indicated by the charge letters:

L-local, a -up to 56km, b1 and b -over 56km,

(from charging points)

### Automatic Radiophone calls

### Direct dialling You can dial direct to mobiles equipped with Automatic

Radiophone receivers in any of the areas shown on

the map below.

| Area 1. |  |  |  |  |  |  |  |  |  |  | dialling code 0034 |
|---------|--|--|--|--|--|--|--|--|--|--|--------------------|
| Areas 2 |  |  |  |  |  |  |  |  |  |  | dialling code 0036 |
| Areas 3 |  |  |  |  |  |  |  |  |  |  | dialling code 0037 |
| Areas 4 |  |  |  |  |  |  |  |  |  |  | dialling code 0033 |

#### What to dial

To call a mobile in one of these areas dial the appropriate code shown, then the Automatic Radiophone number.

### Charges

Calls are charged at a flat rate regardless of distance.

#### **Manual Radiophone**

See "Operator Services" page for instructions.

### Irish Republic calls

Direct dialling You can dial direct to exchanges in the Dublin area of

the Irish Republic.

The telephone numbers consist of 8 figures beginning

with (01), e.g.

(01) 75 91 97

Charge letter

IR Dublin (01) ..... dialling code 0001

What to dial To call a Dublin (01) number:

dial the code 0001, in place of the (01), then the

remainder of the number, e.g.

To call (01) 75 91 97: dial **0001 75 91 97** 

Charges Calls are charged as indicated by the charge letter.

**Operator** For calls you cannot dial direct, or if you have difficulty

in obtaining a dialled call:

dial 100 for the inland operator and say the number

you want is in the Irish Republic.

**Directory enquiries** For numbers in the Irish Republic, dial 192

### International Calls and Enquiries

### **International Direct Dialling**

IDD is the quick, easy way to telephone abroad. It is currently available to over 120 countries, about 93% of the world's telephones.

#### What to dial

Wherever you are calling you will have to dial the complete international number. In most cases this is made up of four distinct elements.

First dial the International Code. From the UK this is always 010.

Then dial the code for the country you require. **Next** dial the Area Code, remembering to omit any initial 0 (or 9 in the case of Finland and Spain).

Finally dial the customer's number.

No Area Code is required on IDD calls to some countries, these are marked \* in the following code lists.

Where this is the case simply dial the customer's number immediately after the Country Code.

Country Codes and a brief selection of Area Codes (identified thus †) are shown on the following pages. Many more Area Codes are published in the International Telephone Guide (ITG). The ITG also gives hints on dialling, charging information and help with international time differences. It is available free of charge by dialling 100 and asking for Freefone 2013 (during normal working hours).

For the business user who may require more extensive Area Code information, a series of IDD Code Leaflets are printed. A leaflet is available for each country on IDD which gives not only codes and time differences, but descriptions of tones you may hear. These are also obtainable free, from Freefone 2013.

Remember that tones in other countries are often different from those in the UK. For a free demonstration dial 100 and ask for Freefone 2070 (for Europe) or Freefone 2071 (for North America).

#### **IDD** Charging

There is no 3 minute minimum, your call is timed and charged in units. Each country is placed in a Charge Band, the time allowed per unit varies according to the Charge Band the country you are dialling is in. You pay only for the number of units recorded during your call.

Cheap Rates. These are available for IDD calls to most countries, the exception being on calls to those countries in Charge Band 5B where the standard rate applies at all times. The IDD Cheap Rate is 8pm to 8am (UK time) Monday to Friday and all weekend. There may be some extension of cheap rates at Christmas and the New Year. Details are published in the press in December.

#### **International Operator Services**

If the call you want cannot be dialled direct then the international operator will be pleased to help you. Similarly, if you require a specific Area Code or a special service, such as a transferred charge or personal call, ask the international operator who will provide the information you require, or connect the call.

Transferred charge calls. These may be made to you from many countries. In the majority of cases charges are as for outgoing personal calls to that country, but in some cases they are higher. For more detailed information contact the international operator.

Conference Calls. This is an expanding service for the business user. A call can be connected between up to 10 parties, each in a different country if required. For more information, or to book a Conference Call, dial 155, and ask for Conference Call Service.

#### **Operator Charging**

All operator connected calls are subject to a 3 minute minimum charge. Further time is charged in whole minutes, part of a minute being rounded up to the next minute.

International charges

A leaflet giving details of international tariffs can be obtained by dialling 100 and asking for Freefone 2013, during normal working hours. Alternatively the international operator can give you the charge for any particular type of call.

is based on Greenwich Mean Time (+ later than, — earlier than).

Our own time alters during the summer as it does in some other countries, so time differences are approximate. If you do need to know the precise time in another country ask the international operator.

#### Time differences

To help you telephone at the right time the basic time differences for each country are included in the following list. The difference

In case of difficulty

If you have a problem with the International Telephone Service contact the international operator or supervisor. If they cannot resolve your problem then:

For IDD calls contact the Service point in

your local British Telecom Area Office, the number is on page 1 of this booklet.

For operator controlled calls, dial 100 and ask for Freefone 2606, during normal working hours.

### IDD and Operator Service Codes

Abbreviations used on the following pages are: (Op.) - Operator, Dir. enqs. - Directory enquiries.

### How to get the best from your telephone

#### **Dialling codes**

Remember, dialling codes for calls within your local call area are often not the same as area codes. Always refer to the 'local call dialling codes' in this book for the correct code to use.

Maintain an up-to-date list of dialling codes and/or numbers of people you are likely to call. This will save you time in the future. A free Personal Telephone Directory can be obtained from your local enquiry operator, dial 191.

It helps to write down the complete code and number before you start to dial.

#### Using the phone

When you dial, using either a rotary dial or press-button telephone, don't pause too long between digits.

After dialling there may be a pause before you hear a tone; hold on for up to 15 seconds on calls within the UK and up to 60 seconds on international calls to allow the equipment time to connect your call.

### Saving time and money

On calls to a private exchange ask for the extension number you want. This will save you time and money. If the extension is engaged, it will often pay to try again later rather than to hold on and wait.

Remember, it costs only a few pence to dial a call to find out if the person you want is there. This may be cheaper than paying for a 'personal' call via the operator because the 'personal fee' is payable whether or not the call is successful. However only one fee is payable however many attempts are made to connect the call during any period of 24 hours. Similarly, a transferred charge call via the operator costs the called person more than if you dial direct and ask to be called back.

### Operator assistance

If you get an unsatisfactory call because of connection to a wrong number, a crossed line, you get cut off or get a very faint or noisy line, dial 100 for the operator who will arrange for an appropriate credit on your next bill. If you wish the operator will assist in connecting your call and will charge you at the Lower Operator Rate.

## How to show your telephone number and area code

#### What to show

Always show your number in full on personal stationery, letterheadings, advertisements etc., in the following form:

Exchange name (area code) local number

### e.g. Aberdeen (0224) 34344

The exchange name is required by callers within your local call area so they can refer to their list of local call dialling codes for the correct code to use.

The area code is for callers outside your local call area to save them looking up the code.

Telephone numbers in and around certain major cities are all-figure numbers, e.g. **021-246 8071**, which do not have exchange names.

### Helping people abroad to dial you

If you have correspondents abroad, it will help them to dial you if you use the internationally agreed format for showing international telephone numbers combined with national numbers, e.g.

| National      | Aberdeen (0224) | 34344 |
|---------------|-----------------|-------|
| International | +44 224         | 34344 |

- + tells callers to dial their own international prefix which varies from country to country.
- 44 is the 'country code' to reach the UK.

The initial figure '0' of the area code is not dialled by callers abroad.

Your 'area code'

Isle of Wight (0983)

# Telephone Dialling Codes

For use only at the following exchange

Isle of Wight
