Presentation of telephone numbers

Your exchange name should always be shown to prevent difficulties for callers who cannot yet dial you direct.

It is helpful to show your Subscriber Trunk Dialling (STD) Code as well on personal stationery, letter headings, in advertisements, etc ; for example :

Stevenage 3799 (STD Code 0438)

Although correct at the date this booklet went to print, charges shown are subject to revision and services may be modified, added to, or withdrawn. The information shown is not comprehensive ; further details are published in the Post Office Guide. More comprehensive and up-to-date information may be obtained from your Telephone Area Office or Telephone Exchange. (International Telephone Exchange for International calls.)

Only dialling codes authorised for use from the telephone you are using may be dialled. It is an offence dishonestly to use the Post Office system with intent to avoid due payment.

All-figure numbers

All-figure numbers

eg **021-246 8071**

061-246 8021

have been given to telephones in and around the cities named below. Please note that the all-figure number includes the figures preceding the hyphen; there is no separate dialling code.

Charge

letter

- a* London **numbers begin 01-**
- b* Birmingham **numbers begin 021-**
- b* Edinburgh **numbers begin 031-**
- b* Glasgow **numbers begin 041-**
- b* Liverpool **numbers begin 051-**
- b* Manchester **numbers begin 061-**

To call one of these numbers dial all the figures.

Dialling to the Irish Republic

You can dial to exchanges in the Dublin area of the Irish Republic.

Telephone numbers in the Dublin area consist of 8 figures beginning with (01)

eg (01) 75 91 97.

What to dial

Dial the code **0001** followed by the required number leaving out any figures in brackets.

For example:

for (01) 75 91 97 dial **0001 759197**.

International dialling

Countries that can be dialled

Shown in the following pages are countries to which you can dial your own calls and some of the places which can be dialled within these countries. If the place or country you wish to dial is not listed, or if you have difficulties, ask the international operator, who will give you the information required or connect the call for you.

Many more places are listed in separate country leaflets which can be obtained free; dial **100** during normal office hours and ask for **Freefone 2013**.

What to dial

If the required telephone is noted as an area telephone number, e.g. Brisbane Stock Exchange News – Brisbane 1193, refer to the following pages and dial the full code followed by the telephone number.

Access code	Country code	Area code	Number
010	61	7	1193

If the required telephone is noted as a national number e.g. Australia 07 1193 dial:

– 010 for access to the international network
– the country code as shown in the following pages (61 for Australia).

– the national number omitting the prefix digit (0), ie 7 1193 in this example.

Exceptionally, for calls to Andorra, Moscow and Tasmania, the initial digit (0) must be dialled.

Spanish and Finnish national numbers use (9) as a prefix; do not dial this.

If the required telephone is noted in the internationally agreed way:

National	<u>07</u>	<u>1193</u>
International	+61	7 1193

dial 010 in place of the + sign followed by 61 7 1193.

Be patient

After dialling you may have to wait up to one minute before hearing a tone.

Tones you may hear

Ring tone in Europe is of medium pitch and bursts of tone are evenly spaced with quite long pauses between them, whilst in North America, it has bursts of low pitched tone. On calls to France you may hear a series of rapid pips to advise that your call is being connected.

Engaged tone in Europe is of medium pitch but repeated at shorter intervals than ringing tone. In North America it is a medium pitched tone with short pauses.

Special information tone three rapid pips in ascending pitch, indicates that a directly dialled call is not available. If an accompanying announcement is of no help, call the international operator for assistance.

For free demonstration of tones, dial **100** and ask for:

Freefone 2070 for tones used in Europe

Freefone 2071 for tones used in North America.

Dialling to the UK from abroad

You will need to check whether you can dial calls to the UK from the telephone you are using. If you can, dial the international access code used in that country, the UK country code (**44**), followed by the STD code (omit the first figure '0') and the subscriber's number.

e.g. to dial 01-246 8041 from the Netherlands, dial 09 44 1 246 8041.

<i>b</i> over 56 km	1 min	15p	9p
<i>c</i> Channel Isles	24 secs	30p	Normal charge applies
- Irish Republic	15 secs	42p	Normal charge applies

The charges shown above are exclusive of **Value Added Tax**. An amount in respect of **VAT** will be charged as an addition to customers' bills.

Notes

- 1 The charge for trunk calls is based on the duration of the call and the distance between charging centres.
- 2 Unless otherwise shown the charges for operator calls are for the first 3 minutes (or part), each additional minute (or part) being $\frac{1}{3}$ of the charge shown.
- 3 The charge for all calls connected by the operator is that in force when the call is originated.
- 4 All rates may be changed on certain days at Christmas and New Year.

The lower operator charge applies to calls that have to be connected by the operator because the caller cannot dial or because a dialled call has failed.

The normal operator charge applies to:

Calls which you choose not to dial yourself.

Special services (Transferred charge, Personal calls, ADC, Radiophone etc)

Calls to the Channel Islands, the Irish Republic or overseas

Calls subsequently connected by the operator after the caller in attempting to dial and the operator in attempting once to connect have both received the engaged tone or no reply.

Inland call charges *from coinbox lines*

The charges shown below were introduced on **1 October 1975** except for the lower operator charge which was introduced on **4 January 1977**

Notes

- 1 The charge for trunk calls is based on the duration of the call and the distance between charging centres.
- 2 The charges shown above for operator calls are for each period of 3 minutes or part.
- 3 The charge for all calls connected by the operator is that in force when the call is originated.
- 4 All rates may be changed on certain days at Christmas and New Year.

The lower operator charge applies to calls that have to be connected by the operator because the caller cannot dial or because a dialled call has failed.

The normal operator charge applies to :

Calls which you choose not to dial yourself

Calls subsequently connected by the operator after the caller in attempting to dial and the operator in attempting once to connect have both received the engaged tone or no reply.

How to get the best from your telephone

Maintain an up-to-date list of dialling codes and/or numbers of people you are likely to call. This will save you time in the future. A free Personal Telephone Directory can be obtained from the number shown below.

It helps to write down the complete code and number before you start to dial.

When you dial, don't pause too long between digits.

After dialling there may be a pause before you hear a tone; hold on for up to **15** seconds (up to **60** seconds on international calls) to allow the equipment time to connect your call.

Ask for the extension number on calls to a private exchange; this will save you time and money. If the extension you want is engaged, it will often pay to try again later.

Remember, it costs only a few pence to dial a call to find out if the person you want is there; this is cheaper than paying for a personal call via the operator. It also costs less to dial a call to the person you want asking him to call you back, rather than getting him to pay a transferred call charge.

If you require further free copies of this book or a personal telephone directory, please ask your enquiry operator; dial **191**.

If you have any enquiries about the information in this book, please dial **100** during normal office hours and ask for **Freefone 2013**.
