

SUBSCRIBER TRUNK DIALLING

Dialling Instructions and Call Charges

For telephones WITHOUT a coin box

SWINDON

Issue 1

Subscriber Trunk Dialling Instructions and Call Charges

WHAT TO DIAL

¶ For an exchange shown on the following pages,
dial the code and then the number you want

For ALL-FIGURE numbers (those which have no exchange name), dial all the figures

For any other exchange, dial **100** for the operator

WHAT IT COSTS

¶ Details of call charges are shown on page 1

When you make a call

First check the code (if any) and number

Lift the receiver and listen for dialling tone (a continuous purring)

Dial carefully and allow the dial to return freely

Then wait for another tone:

Ringing tone (burr-burr) the number is being called

Engaged tone (a repeated single note) try again a few minutes later

Number unobtainable tone (steady note) replace receiver, re-check the code and/or number and then re-dial

After dialling a trunk call there will be a pause before you hear a tone; during this time the trunk equipment will be connecting your call

At the end of the call, replace the receiver securely because timing of calls stops when the caller hangs up

When you answer the telephone

Always give your name or telephone number

If you hear a series of rapid pips, the call is coming from a coin box telephone of the new type. Wait until the pips stop and then give your name or telephone number

How to get the best from STD

STD is quicker and cheaper, so dial as many of your calls as you can

Maintain in your Personal Telephone Directory an up-to-date list of dialling codes and/or numbers of people you are likely to call. This will save you time in the future

When you dial, don't pause too long between digits

If the number you want is engaged, wait a few minutes before dialling again

Ask for the extension number on calls to a private exchange; this will save you time and money. If the extension you want is engaged it will usually pay, on an STD call, to clear and try again later

Remember, it costs only a few pence to dial a call to find out if the person you want is there; this is cheaper than paying for a personal call via the operator

If you hear a recorded announcement telling you that the trunk lines are engaged, replace the receiver and try again later

Answer your telephone promptly, giving your name or telephone number. This saves time and money and helps the caller

Be sure your telephone arrangements are adequate. The Telephone Manager will always be pleased to give advice

Ask your enquiry operator (dial **191**) if you require another copy of the Personal Directory or this Dialling Instruction Booklet

Call Charges

Nearly all trunk calls are cheaper if you dial them. For both local and dialled trunk calls you buy telephone time in twopennyworths, the amount of time bought for 2d. depending upon the distance of the call. When a dialled call is answered, your meter at the exchange registers once. This records one unit of time and each unit costs 2d. The meter registers again as each new time unit begins. There will be no time pips on dialled calls.

LOCAL CALLS (Dialled or connected by the operator)

Time bought for 2d. Full rate 6 minutes. Cheap rate 12 minutes.

TRUNK CALLS

Calls you dial yourself

Time bought for 2d.

			Distance in miles	Calls connected by the operator 3 minute call (minimum charge)	
Full rate	Cheap rate	Charge letter used in the list of codes		Full rate	Cheap rate
30 secs.	60 secs.	<i>a</i>	Up to 35	s. d. 1 0	s. d. 9
15 "	30 "	<i>b</i>	35 to 50	2 0	1 3
			50 to 75	3 0	1 9
10 "	20 "	<i>c</i>	75 to 125	3 6	2 3
			over 125	4 0	2 3

TRUNK CALLS CONNECTED BY THE OPERATOR

The call charges shown in the last two columns above apply to all trunk calls connected by the operator for any reason.

The charge for each extra minute, or part of a minute, beyond three minutes, is one-third of the rate shown.

Cheap rate periods

6 p.m. to 6 a.m. every night and all day Sunday.

The cheap rates may be suspended on certain days at Christmas and New Year.

Subscribers' meters

Subscribers' dialled trunk calls are recorded at the exchange on the same meters used for recording local calls. These meters are extremely reliable and are regularly tested. You can have a demonstration of how trunk and local calls are recorded, if you care to visit the exchange. To make an appointment Telephone Gloucester 21561.

Private meters, which work in step with those at telephone exchanges, can be rented by subscribers who wish to assess costs of individual calls as they are made. Details can be obtained from the Telephone Manager.

Personal and transferred charge calls

With STD it costs only a few pence to dial a trunk call and ask for the person you want or to arrange for him to ring you back and this may be cheaper than the normal Personal or Transferred Charge Call services. You can, however, if you prefer, still obtain these services via the operator by dialling 100.
