

INPHONETM INFO INSIDE.

Inphone is the phone you've never known but always wanted.

In fact a whole range of new look, new concept British Telecom phones.

INVITING.

Inphone is inviting.

Lots of new idea phones.

More sophisticated, more streamlined, more colourful, more stylish, more fun.

In hues to enthuse all kinds of tastes. Naturals, pastels, bold and bright.

One colour and style for the bedroom, one for the lounge, one for the kitchen, or just one for all.

INSTANT.

The new style Inphone plug gives you instant mobility, because it plugs in wherever you want it.

Into a special white socket that British Telecom will fit anywhere you like.

Upstairs or downstairs.

Quickly and at a reasonable cost.

IN THE BAG.

You can get your Inphone direct from British Telecom by calling 100 and asking the operator for Freefone Telecom Sales during office hours.

See the enclosed sheet for charges.

SCEPTRE.

The Sceptre is an advanced electronic press-button phone with a 10-number microprocessor memory.

Just programme in ten of your most often dialled numbers, and you're through at the press of a button or two.

It also has a visual display, 24-hour clock, last number redial and call timer.

Available in blue, two-tone beige, maroon or two-tone grey.

VERSATEL.

An elegant, innovative Inphone, the Versatel features press-button dialling incorporated in the sleek lines of the handset. When not in use it rests in its own neat cradle.

Should you get an engaged signal you can redial the last number called at the touch of a button.

Available in green, mushroom or burgundy red, the Versatel can be used as shown, or with an optionally purchased wall-mounting bracket.

SNOOPY.®

Snoopy and his close friend Woodstock add fun to any telephone call. Like Mickey Mouse they stand on a simulated wooden plinth, with Snoopy holding the handset in his right paw.

Snoopy is always ready for action with press-button dialling and a facility for obtaining the last number dialled at a fingertip's touch.

VISCOUNT.

Ultra modern, lightweight, and very clever, the Viscount's special features include press-button dialling, adjustable tone caller, last number redial, a silence button for confidentiality, and a note pad facility to store the next number to be dialled.

Wall-mounting bracket optional.

Available in tan, ice-grey, beige or green.

VISCOUNT 12.

Ideal for both home or office, the Viscount 12 will store up to twelve 16-digit numbers which can be dialled at the simple press of a button or two.

It's compact and lightweight with press-button dialling, adjustable tone caller and an optional wall-mounting bracket for real versatility.

Other clever features include a last number redial facility, a silence button for confidentiality and a note pad facility which will store the next number to be dialled while you're talking – ideal if you're getting information from Directory Enquiries.

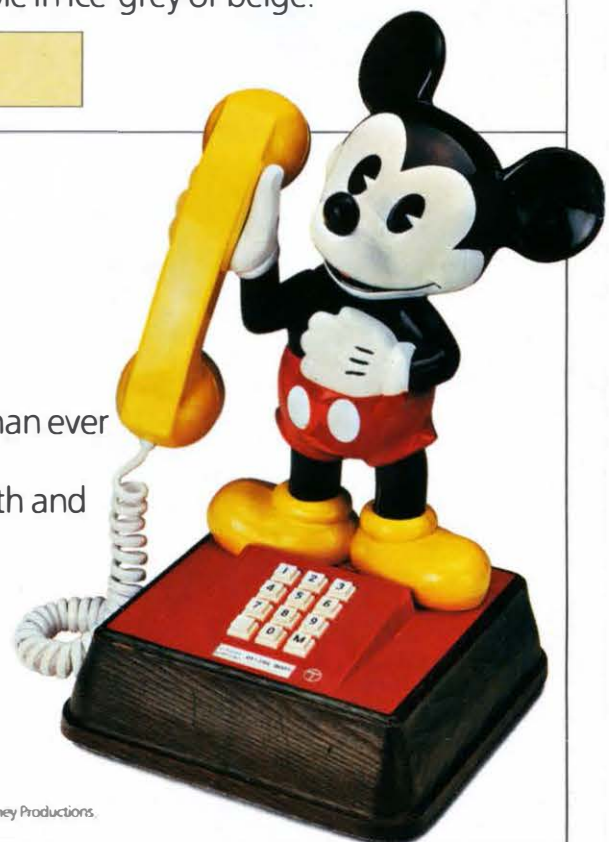

Available in ice-grey or beige.

MICKEY MOUSE.®

Mickey Mouse gets through to everyone – now more than ever on this delightful, colourful fun-phone.

Mickey stands 15" high on his own simulated wood plinth and holds the receiver for you in his right hand all day, every day, just waiting for a call to come through.

AMBASSADOR.

Neat, modern, lightweight and very versatile, the Ambassador features press-button calling.

Beneath the handset there's a handy personal directory pad for noting important numbers.

The Ambassador also has a useful bell volume control. A separate wall-mounting bracket can be purchased.

Available in dark brown, stone or mid-grey.

CURLEW.

The mobile cordless Inphone with a memory for numbers—the Curlew lets you take or make calls up to 100 metres from the base unit. It has a nine number memory store for those frequently dialled numbers so that you can access them at the touch of a button or two.

Useful features include last number redial, plus a paging facility from the base unit to the handset. And security code, which protects unauthorised access by other cordless phone users.

The Curlew is available in ivory and can be wall-mounted.

HAWK.

Cordless Inphone that functions up to 100 metres from the base unit.

Features press-buttons, redial facility, note pad memory, audible pager, hi-lo volume control, handy belt clip and security code, which protects unauthorised access by other cordless phone users.

The Hawk is available in grey, and can be wall-mounted.

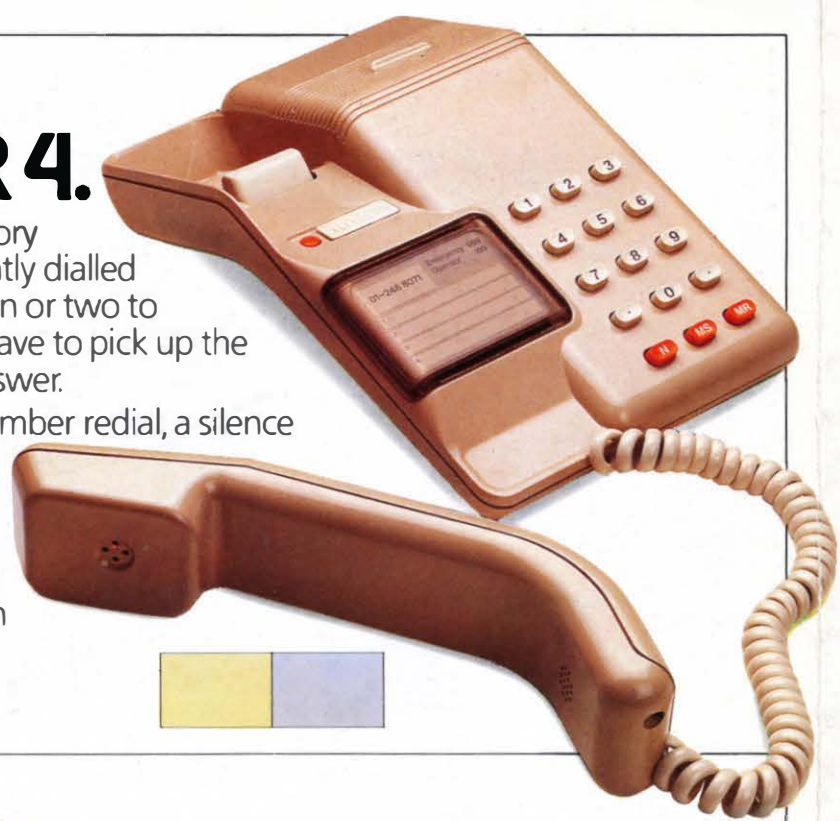

VISCOUNT SUPER 4.

The Viscount Super 4 boasts a memory capable of storing 4 of your most frequently dialled numbers—so you only need press a button or two to make your call. What's more, you don't have to pick up the handset until you hear the other party answer.

Other useful features include last number redial, a silence button so that you can talk to someone else in the room, without being heard by the other party, and a volume control on the tone caller.

Available in beige or ice-grey, with an optional wall-bracket.

EASIKOM.

The Easikom loudspeaking telephone allows you to hear and be heard without lifting the handset. Or you can use it as a normal telephone for a more private call.

Features on-hook dialling, last number redial, adjustable tone and volume control, and a confidentiality button.

Can also be wall-mounted. Available in stone.

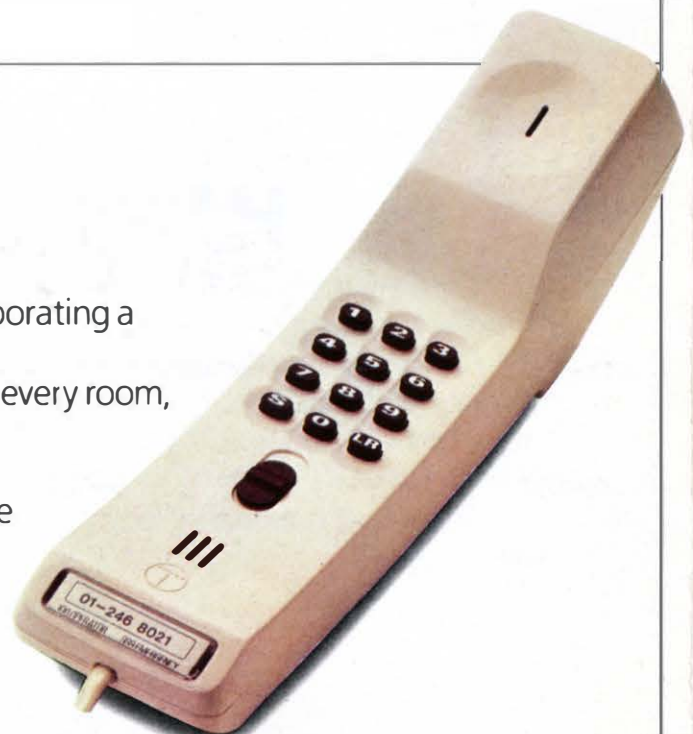

SLIMTEL.

Excellent value one-piece telephone incorporating a microphone cut-out and last number redial.

Its distinctive styling looks good in any and every room, whatever the setting.

A separate wall-mounting bracket can be purchased which makes it an ideal choice for the kitchen, hall or bedroom.

Available in off-white.

PICTUREPHONE.

This unique, wall-mounted, fully electronic Inphone gives the art of conversation an entirely new meaning.

It's designed to hang on your kitchen wall and display your favourite pictures or photographs. You simply lift off the clear perspex cover and change the scene to match your mood or room.

Mirror or cork board kits are also available.

Features include last number redial and volume control on the tone caller.

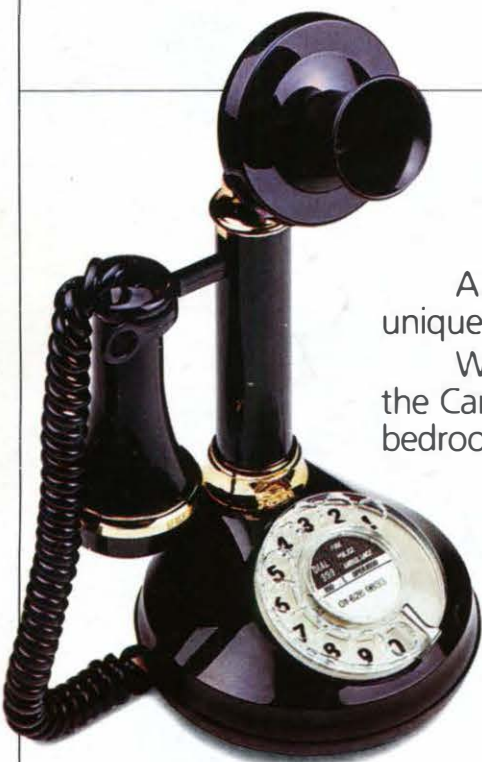

CANDLESTICK.

A little piece of telephone history comes back in the unique shape of the Candlestick Inphone.

With its separate earpiece and mouthpiece and classic dial, the Candlestick looks good everywhere – from the hall to the lounge, bedroom to study, kitchen to conservatory.

As it has no integral bell, the Candlestick makes a perfect extension phone – ideal upstairs if you don't want the children woken up at night. When installed as a first phone, an add-on bell unit will be required.

Available in black or white with gilded trim.

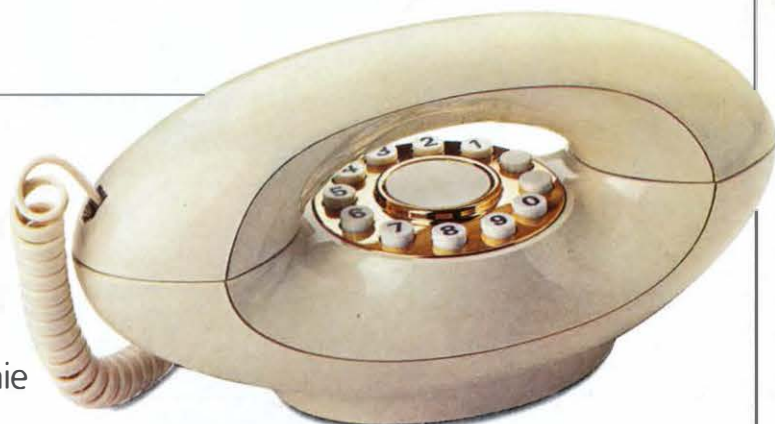

GENIE.

The unique, rounded lines of the Genie add a certain style to any interior. It has press-button dialling and an adjustable control on the tone caller, so it's only ever as intrusive as you need it to be.

A conversation piece in its own right, the Genie is available in antique white, peach, red, brown or blue/white.

Genie is a Trade Mark belonging to the American Telecommunications Corporation.

We do our best to supply our customers with the apparatus they ask for, but we may have to provide apparatus which does not accord exactly with the descriptions, illustrations and shades of colours shown in this leaflet.

Viscount, Sceptre and Versatel are Registered Trade Marks of British Telecom. Inphone, Ambassador, Slimtel, Viscount Super 4 and Viscount 12 are Trade Marks of British Telecom.
