

# Talking points

# Extensions - a talking point for every room

Once you're on the phone it doesn't cost much to extend the service to anywhere in the house. With a bedroom telephone you never have to hurry downstairs to answer a call.

A wallphone in the kitchen is a boon for the busy housewife and keeps working surfaces clear. And with a telephone in the lounge you can enjoy a telephone conversation without moving from the comfort of your armchair.

*TRIMPHONE - sleek, compact, featherlight.  
Available in 3 colour variations.*

*WALLPHONE - the space saver.  
Available in 3 of the Tablephone colours.*

*TABLEPHONE -  
in 7 smart colours.*

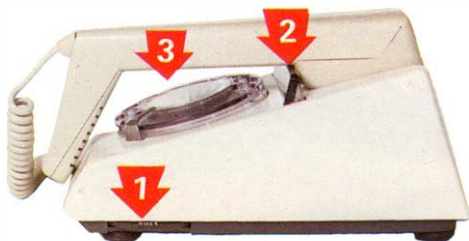

# Trimphone

## – the new shape

For a small extra charge you can have the phone of the future now. Trimphone comes in a choice of three colour variations.

And Trimphone doesn't only have a new shape – it's got a new sound too . . . a pleasant warble. The featherlight Trimphone, with a dial that glows in the dark, adds a touch of luxury to your bedside. And people like to have Trimphones in other rooms too.

**1 VOLUME CONTROL** You can adjust the volume of the warble, to SOFT, LOUD, or a CENTRE POSITION, which allows the volume to build up from soft to loud.

**2 CARRYING HANDLE** The receiver rest of the Trimphone is cleverly designed as a carrying handle.

**3 LUMINOUS DIAL** The figures are illuminated by the glow of the dial plate for immediate location in the dark.

**FEATHERLIGHT AND COMPACT** Trimphone handset weighs only 5½ ozs. The complete instrument weighs only 2 lbs. and is just 4¼" wide.

## Trimphone colours

In each case a combination of two tones is used, with the handset taking the darker tone.

# First choose your system

## Fixed Extensions (PLAN 1A)

Up to FIVE extensions can be installed. Each has its own telephone from which you can receive or make calls. Each has a bell (or tone caller if Trimphone) which can be switched off individually.

## The Plug-in Portable (PLAN 4)

You can make your single telephone mobile by having socket outlets installed wherever you need to use the phone. You simply unplug the phone from one place, move it to another, plug in and make your call.

A central bell will ring even if the phone is not plugged in – but of course you cannot move the phone between sockets during a call.

# Then choose your phones

**Trimphones** Smart new shape. Two-tone colours. Choose from Grey, Green, or Blue.

**Tablephones** Seven colours: Concord Blue, Topaz Yellow, Laquer Red, Two-tone Green, Two-tone Grey, Light Ivory or Black.

**Wallphones** The space-savers. Three colours: Light Ivory, Two-tone Grey, or Black.

## Ask for advice

We'll be pleased to discuss your particular needs. Get in touch with your Telephone Sales Office. The address and telephone number are in the front of the telephone directory.

FOR PRICES PLEASE REFER TO SEPARATE LIST ENCLOSED.

We do our best to supply our customers with the telephones they ask for, but from time to time we may have to provide telephones which do not accord exactly with the descriptions in this leaflet.
